## All-In-One Solution

The powerful PMP2000 gives you the choice of 2 x 350-Watt stereo, 2 x 350-Watt dual mono or 800-Watt bridged mono sound. Whether the center of attention happens to be a folk trio, a speech, or a synth-rock band with mind-boggling stereo patches, the PMP2000 can accommodate with ease. This sonic versatility also makes it an excellent choice for churches, where vocals and stereo recordings often share face time.

## Built-in Digital Multi-FX Processor

Equipped with our studio-grade 24-bit Multi-FX processor, the PMP2000 gives you 100 mind-blowing digital effect presets such as delay, chorus and reverb. Apply them to any channel, as well as to the monitors and main output. Of course, if you have treasured outboard gear you've grown attached to, these mixers can integrate them into the mix while bypassing the built-in FX processor.

## Getting Connected

Use the PMP2000's CD/Tape RCA inputs to feed in external stereo signals from CD players or tape decks. Conversely, the CD/Tape RCA outputs send line-level signals from the mixer to a recording device. The left and right output 1/4" connectors can be used for a variety of purposes, including connecting to additional power amps. Connect your monitor power amps or active monitor speakers to the Monitor Sound output. Powered outputs on the PMP2000 are of the professional, twist-lock Speakon-compatible variety.

## Small, Simple, Superb

Medium-sized events call for the lightweight PMP2000 (30.9 lbs/14 kg), easy-to-use 14-channel, 1800-Watt powered mixer. The PMP2000 is the most efficient and affordable powered mixer for the job, and can even be used as a pure analog mixer – or a pure power amplifier. With its high-quality mic preamps, 24-bit Multi-FX processor, and dual 9-band graphic EQs with our FBQ Feedback Detection System – the PMP2000 makes it easier than ever to lend exceptional sound quality to all kinds of public performances.

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own **MUSIC Group** factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty program](#).
