

Introducing **The Drumulator** from E-mu Systems, Inc. A digital drum computer with an amazing new feature.

Affordability.

The Drumulator. Now E-mu Systems technology brings you a digital drum machine with features you don't expect. At a price you won't believe.

With the Drumulator, you'll create complete rhythm tracks with the digitally recorded sounds of real drums. The Drumulator's computer makes it easy to program complex rhythms in any time signature. It will even correct timing errors in your playing.

The Drumulator's enhanced programmability gives you precise digital control over virtually every musical parameter. With its programmable mixer you can store and instantly recall a completely different mix for each rhythm track that you create. The tempo of each track can also be programmed, along with tempo changes within the track.

The Drumulator's unique programmable dynamics offer expressive capabilities never before possible with an electronic drum machine. You have access to normal and accented versions of every sound, with the accent levels independently programmable for each drum, cymbal, and percussion instrument. What's more, these accent levels can be programmed differently for each song and, like the mix, stored in memory for instant recall.

For flexibility in live performance, the Drumulator allows you to define sections within each song that can be

programmed to repeat until cued to continue by the press of a footswitch. This allows you to change the length of a song each time it's performed, shortening or lengthening solos, or repeating choruses as many times as you like.

Add to all these features the ability to sync to tape or other sequencers, assignable play buttons, external triggering from drum synthesizer pads, and individual channel outputs, and you have a digital drum computer that would be an amazing value at \$1990.00. But what's even more amazing is that for \$1990.00 you would get something that you probably wouldn't expect.

Two Drumulators.

The Drumulator's suggested list price in the United States is \$995.00.
