

VST Sound Collection Vol. I

Welcome !

First of all we would like to thank you for choosing this high-quality Steinberg product. This document contains information about installing and using VST Sound Collection Vol. I on your computer.

About VST Sound™

Steinberg's universal media management format – VST Sound™ – is a fundamental part of VST3, the latest version of Steinberg's industry standard Virtual Studio Technology.

By supporting VST Sound™, plug-ins and instruments from third party manufacturers can be directly integrated into MediaBay – the media management system used in Steinberg's host applications. This integration makes the entire process of finding and working with any form of media file including audio, loops, VSTi presets, videos, MIDI parts and Track Presets, much faster and simpler.

About the VST Sound Collection Vol. I

The VST Sound Collection Vol. I offers almost 2 GB of new content, sounds and loops produced by top producers, including Yamaha, Sonic Reality and Big Fish Audio. It can be used royalty free by all Cubase 4 and Nuendo 4 customers and is supported in the following applications:

Cubase 4.5
Cubase Studio 4.5
Nuendo 4.2

What's inside ?

VST Sound Collection Vol. 1 includes:

45 brand new instruments for HALion One by Sonic Reality

Provided by the content experts at Sonic Reality, this new HALion One sound library adds premium instruments for your inspiration: beautiful guitars, smooth basses and a whole load of great-sounding electronic and acoustic drum kits. The sumptuous quality of these versatile new instruments will add exciting new flavors to any Cubase project or song.

Original Yamaha S90ES Grand for HALion One

The famous Yamaha S90ES Grand is one of the most sought-after sampled stage piano sounds around. This outstanding piano sound is now integrated directly into Cubase with HALion One! Using the original samples, captured with care and outstanding precision by the Yamaha Content experts, the S90ES Grand for HALion One delivers a truly beautiful expressive timbre, suitable for all styles of piano playing.

250 new and fresh Drum Loops by Big Fish Audio*

Red-hot drum beats and scorching loops – all of them ready to use and optimized for variety and creative usage with the excellent beat mangling and manipulation tools in Cubase. And because they're all ready for the Cubase MediaBay, finding the right loop for a song takes only a few seconds.

(Drum Loops not supported in Cubase AI 4.5)*
